

# Remote GSM Modem Control

## RCDS

The NL-Series of meter can be fitted with ANV's RCDS system. This will allow remote access to your NL 21/31/22/32 via GSM. When used in conjunction with the ARL NL Logging Kit and Solar option this unit can run remotely, unattended almost indefinitely.

### Key Features:

- Full access to download remotely
- Control multiple sound level meters from the same PC
- View real time sound pressure levels
- Software uses the same clear and intuitive interface as the meter

Note: Specifications are subject to change without notice.
