Logging Kit

Rion NL Series Logging Kit

The NL-Series Logging Kit is manufactured to fit the Rion range of NL series sound level meters. The NL-21, 22, 31 or 32 is easily transformed into a fully functional environmental noise logger.

Key Features:

- Versatility of a SLM when not logging
- Complies to Australian Standards
- Weatherproof pelican case
- Ideal for safe storage of your meter
- 6v regulator to protect your meter
- 12V 12Ah battery, light and easy
- Stores data to CF card
- Additional storage for your calibrator
- Microphone post and accessories store inside the case
- No awkward fitting of cables through glands

Optional Extras

- Remote access via GSM
- Solar power for extended logging

Note: Specifications are subject to change without notice.
