

# SoundEar® & Aeromix Noise Limiter

SoundEar®  
2000

## Noise Limiters

The SoundEar® is an noise monitoring display that shows you when a pre-set noise level has been exceeded. When used in conjunction with the Aeromix, music can be cut out when the sound pressure level exceeds set levels. All this without negatively affecting the amplifier and/or speakers.

### Key Features:

- Easy to set SPL limit dial
- Lightweight and easy to mount
- Simple to set up and use with a minimum of cords
- The Aeromix allows the user to continue using a microphone even after cut out.

### Specifications:

- SoundEar® Power supply: 24V AC
- Aeromix Power Supply: 24V DC
- 5dB increments between 40 and 115dB
- SoundEar® Weight: 1kg
- Aeromix Weight: 1.1kg

Note: Specifications are subject to change without notice.
